

# Shipping Policy

1. Standard shipping typically takes 3-7 business days after an order moves from Processing to Shipped.
2. Expedited shipping options are available at checkout for an additional fee and typically take 1-3 business days.
3. Shipping delays caused by customs, weather, or carrier issues are outside the company's control, but customers should contact support if a delivery is more than 5 business days late.
4. Once an order has shipped, the shipping method and carrier cannot be changed.
5. International orders may be subject to customs fees, which are the customer's responsibility.
